RMF 2016

Rocky Mountain Fluid Mechanics Research Symposium

Tuesday, August 9th, 2016

**Sustainability, Energy, and Environment Complex (SEEC),
University of Colorado, Boulder**

Call for Abstracts

Due by July 22, 2016 to abstracts@rockymountainfluids.org

The Rocky Mountain Fluid Mechanics Research Symposium is a local technical meeting bringing together students, faculty, and professional researchers with a common interest in fluid mechanics. The primary purpose of the symposium is to provide student researchers along the Colorado Front Range and the greater Rocky Mountain Region the opportunity to present and discuss their work in a casual setting. Both oral and poster presentations will be hosted; however, neither is a prerequisite for meeting attendance. More information is provided at rockymountainfluids.org.

Abstracts are requested for both oral and poster presentations in all areas of fluid mechanics. Oral presentations are each 15 minutes in length, with 12 minutes for the speaker presentation and an additional 3 minutes for questions and discussion. Poster sessions will be held during coffee breaks and lunch. As part of its educational mission, researchers at the **undergraduate, graduate, or postdoctoral levels will deliver all talks at RMFM 2016**.

Abstracts are limited to a 1300 character maximum and should be submitted to abstracts@rockymountainfluids.org by **July 22, 2016**. Abstract submissions must include the following components:
- Title of abstract submission
- Choice of poster or oral presentation
- Presenting author name, educational level, and affiliation
- Co-author names and affiliations
- Abstract text (1300 character maximum)

Meeting organizers are:
- Andy Clifton, *National Renewable Energy Laboratory*
- John Farnsworth, *University of Colorado, Boulder*
- Xinfeng Gao, *Colorado State University*
- Peter Hamlington, *University of Colorado, Boulder*
- Andrew Lofthouse, *United States Air Force Academy*
- Nils Tilton, *Colorado School of Mines*
